

LIFTRONIC WITH SINGLE ARM RAIL MOUNTED:

1. Trolley
2. Structure (single arm)

tab.1	MODEL
	L80M
Load capacity * (kg)	80
Speed (m/s)	0.6
Vertical stroke E (m)	2.8
Dimension R1 (mm)	1250
Dimension R2 (mm)	2240
Dimension A (mm)	475
Rail distance D (mm)	800
Structure size	Light
Weight (not tool) (kg)	165

* Max load capacity depends on tool weight and duty cycle

HR: when calculating rail height on floor, beware distance 'A' (see above table 1)
In case HR > 3500mm, could be necessary to use rope extensions (see SCH182)

Table showing standard arms alternative to the above mentioned table 1

		Arm length R1 (m)			
		0.8	1	1.25	1.5
Light size	Capacity (kg)	130	100	80	60
	R2 (mm)	1435	1790	2240	2690

Special configurations:

- Special painting (standard: green RAL 6018)
- Arm Length
